

PROVIDING THE HIGHEST QUALITY & MOST RELIABLE FOOD MACHINERY IN THE UK.

AFMG 48 AUTO FEED MIXER GRINDER

Power, durability and low maintenance are the best words to describe a Biro Mixer Grinder. With a 32 sized head and capacity for 91kg the AFMG 48 has proved a mainstay of the Biro family. Much like the Biro mincers the heavy duty chain with tapered roller bearing journal box sets it apart from its competitors providing maximum torque to the auger and no expensive gearbox to ever replace. The AFMG 48 has been used for a number of different purposes in the UK including extruding dates so it's not just about producing outstanding mince.

MACHINE SPECIFICATION:

- Automatic Feed Mixer Grinder
- 7.5HP Motor
- Power - 3PH
- 48 Sized Head
- Uses size 32 Knife and Plate
- Hopper Capacity - 91kg
- Grinding Capacity - 29.5kg per minute
- Safety - Magnetic safety interlock on hopper lid
- Weight - 310kg
- External Dimensions (WxDXH)
686 x829x1635mm
